December 18, 2009

Dear Customer,

This letter is to inform you of a change affecting your cable TV service. As you may have read in the local newspapers, WPGA will cease airing ABC programming as of January 1, 2010. WGXA will begin broadcasting ABC programming on the same day on a second WGXA channel. They will also continue to air FOX on their primary channel. We will carry WPGA and the new ABC channel as part of your basic cable. Watson Cable customers should experience no interruption in viewing ABC programming. WPGA's new 2010 program schedule is posted on their website.

In order to accommodate the new ABC affiliate, we are required to make a change to the lineup. As of Jan 1, WGXA – ABC will replace WTVM - ABC on channel 9. We apologize for any inconvenience this may cause but the change is necessary.

Also, we are extending our free installation on all digital services through January. Call and find out what exciting digital options we offer. Even more High Definition and Digital Channels are coming in the first quarter of 2010 along with digital phone service.

Happy Holidays and as always thank you for being a Watson Cable customer.
